

Diving

You will have outstanding diving opportunities to explore the rich marine life of these turquoise waters and to see the ruins and wrecks awaiting you. You will feel yourself as if in another world while hand feeding the fish. You may choose from basic to advanced level whichever suits you. The tours are organized on a daily basis and are ideal for a relaxing day out. PADI and BSAC dive courses are also available. Non-diving guests are welcome to join for a relaxing day on the boat.
